

GRAPHIC DESIGN/WEB DESIGN - WEB DESIGN CERTIFICATE - LEVEL ONE CERTIFICATE

A concentrated one-year degree program prepares students for careers in web design and video production. Through hands-on training and projects, students acquire the skills necessary to be successful in entry-level positions in web publishing, video production or related industries.

Graphic designers are in demand in publishing, marketing, videography, public relations and Web development departments. While crafting logos, posters and brochures, graphic designers may also design electronic media such as websites, videos and social media campaigns.

Web developers create attractive, easy-to-navigate websites. As the field booms, the need for Web developers will increase 8 percent by 2029.

In College of the Mainland's Graphic Design/Web Design program, students will explore how to combine color, typography, and space to produce eye-catching designs. Repeatedly, COM students have earned awards and recognition for their exemplary work. The program prepares students to enter the workforce.
