

INFORMATION TECHNOLOGY - NETWORKING FUNDAMENTALS - OCCUPATIONAL SKILLS AWARD

The Occupational Skills Award and Certificate in the Networking program are designed to provide students with skills needed in various aspects of information technology. Students will gain knowledge and skills required to pass a variety of industry recognized certifications. Certificates are offered in the areas of programming, database administration, computer maintenance and networking.

The Information Technology (Networking) Occupational Skills Award is designed to provide the student with a fundamental IT and Networking education for obtaining employment as a Computer Support Specialist.
